FISHERIES RESEARCH AND DEVELOPMENT CORPORATION (FRDC)

STATEMENT BY THE MANAGING DIRECTOR AND CHIEF FINANCIAL OFFICER

In our opinion, the attached financial statements for the period ended 28 February 2019 comply with subsection 42(2) of the Public Governance, Performance and Accountability Act 2013 (PGPA Act), and are based on properly maintained financial records as per subsection 41(2) of the PGPA Act.

In our opinion, at the date of this statement, there are reasonable grounds to believe that the FRDC will be able to pay its debts as and when they fall due.

2.1A

The above statement should be read in conjunction with the accompanying notes.

Overview

Objectives of the FRDC

The FRDC is an Australian Government controlled entity. It is a not-for-profit entity established as a statutory corporation on 2 July 1991 under the provisions of the *Primary Industries Research and Development Act 1989* (PIRD Act). The objectives of the FRDC are to plan and invest in fisheries research, development and extension (RD&E) activities and in related marketing activities.

As a national organisation with strong linkages to industry, managers, and researchers the FRDC has a fundamental role in providing leadership and coordination. The FRDC achieves this through establishing strong relationships, and putting in place mechanisms to identify and address priorities with industry and government stakeholders. In addition, the FRDC monitors and evaluates the adoption of RD&E and marketing outputs to better inform future decisions.

The FRDC is structured to meet the following outcome:

Increased economic, social and environmental benefits for Australian fishing and aquaculture, and the wider community, by investing in knowledge, innovation, and marketing.

The continued existence of the FRDC in its present form, and with its present outcome, is dependent on Australian Government policy, and on continuing funding from the Australian Government for the FRDC's outcome.

The basis of preparation

The financial statements are general purpose financial statements, and are required by section 42 of the *Public Governance, Performance and Accountability Act 2013*.

The financial statements have been prepared in accordance with:

- a) Public Governance, Performance and Accountability (Financial Reporting) Rule 2015 (FRR) for reporting periods ending on or after 1 July 2017; and
- b) Australian Accounting Standards and Interpretations - Reduced Disclosure Requirements issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis, and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

New Australian Accounting Standards

Adoption of new and future Australian Accounting Standard requirements

No accounting standard has been adopted earlier than the application date as stated in the standard.

The new standards, revised standards, interpretations and amending standards that were issued prior to the signing of the statements by the: Board Chair; Finance, Audit and Risk Management Committee Chair; Managing Director; and Chief Financial Officer; and are applicable to the current reporting period, did not have a material impact, and are not expected to have a future material impact, on the FRDC's financial statements.

Taxation

The FRDC is exempt from all forms of taxation except fringe benefits tax (FBT), payroll tax, and the goods and services tax (GST).

Events after the reporting period

No reportable events have occurred after the Statement of Financial Position date.

Total suppliers	1,018,952	1,215,374

¹ Operating lease commitments

Canberra office

Operating leases included were effectively non-cancellable. The lease for the office accommodation at 25 Geils Court, Deakin, Australian Capital Territory has been renegotiated for a further three years and expires 31 July 2020. Lease payments are subject to a 3 percent annual increase in accordance with the lease agreement.

Adelaide office

The lease for the office accommodation at Wine Australia, corner Botanic and Hackney Roads, Adelaide, South Australia commenced 31 March 2016 with an annual right of renewal until 30 March 2021. The current lease term expires 30 March 2019. Lease payments are subject to the annual increase in accordance with movements in the consumer price index.

Port Stephens office

Resources received free of charge

The Department of Industry New South Wales provides FRDC with office space at the Port Stephens Fisheries Institute, Nelson Bay, free of charge for three FRDC staff members working on the National Carp Control Plan. The monetary value cannot be reliably determined and is therefore not included in the operating lease commitment schedule.

	2018-19	2017-18
	\$	\$
<i>Note 1.1: Expenses continued</i>		
Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:		
Within 1 year	145,129	136,744
Between 1 to 5 years	59,480	190,723
Total operating lease commitments	204,609	327,467

Note: Leasing commitments are GST inclusive.

Accounting policy

Operating lease payments are expensed on a straight-line basis, which is representative of the pattern of benefits derived from the leased assets.

Note 1.1C: Projects

Australian Government entities (related parties)	1,838,532	2,062,474
State and territory governments	3,880,798	2,703,074
Universities and educational bodies	3,920,240	3,319,213
Cooperative research centres	100	-
Research and development corporations	5,504	5,433
Industry (commercial, recreational and Indigenous)	4,151,073	3,323,111
Overseas research entities	129,542	90,208
Private providers	2,961,600	3,187,762
Total projects	16,887,389	14,691,276

Accounting policy

The FRDC recognises project liabilities through project agreements that require research partners to perform services or provide facilities, or to meet eligibility criteria. In these cases, liabilities are recognised only to the extent that the services required have been performed, an invoice issued consistent with the contractual requirements, and the eligibility criteria have been satisfied by the research partner to the FRDC's satisfaction.

Project commitments

Project commitments comprise the future funding of approved projects that are contingent on the achievement of agreed deliverables over the life of those projects (project agreements are exchanged prior to release of the first payment on a project). Projects, where amounts were payable but were unpaid at the end of the period, have been brought to account as project payables. The FRDC contracts to fund projects in future years in advance of receipt of the income needed to fund them. FRDC manages this risk by having the project agreement allow for termination at its sole discretion for any reason. If the FRDC were to terminate a project agreement, it would only be liable to compensate the research partner for any reasonable costs in respect of unavoidable loss incurred by the research provider and directly attributable to the termination of the agreement, provided that the costs are fully substantiated to the FRDC.

Project commitments are payable as follows:

Within 1 year (unpaid deliverables up to 30 June 2019)	29,900,341	27,499,845
Between 1 to 5 years (1 July 2019 to 30 June 2023)	33,159,004	32,800,504
Over 5 years (from 1 July 2023)	146,674	192,500
Total project commitments	63,206,019	60,492,849

Note: Project commitments are GST inclusive.

Note 3E: Finance costs

Total finance costs	-	-

present value of the future cash flows for the Department of Agriculture and Water Resources debt payable (refer Note 8C)

Note 1.1D: Write down and impairment of assets

Asset write down and impairments from:

Write down of intangible assets ¹	12,073	-
Total write down and impairment of assets	12,073	-

	2018-19	2017-18
	\$	\$

Note 1.2: Own-source income

Own-source revenue

Note 1.2A: Sale of goods and rendering of services

Sale of goods	-	345
Total sale of goods and rendering of services	-	345

Accounting policy

Revenue from the sale of goods is recognised when:

- a) the risks and rewards of ownership have been transferred to the buyer, and
- b) the entity retains no managerial involvement or effective control over the goods.

The stage of completion of contracts at the reporting date is determined by reference to the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for goods, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

Note 1.2B: Interest

Deposits	397,407	274,173
Total interest	397,407	274,173

Accounting policy

Interest revenue is recognised using the effective interest method.

Note 1.2C: Grants

Australian Government

Department of Agriculture and Water Resources ¹	2,052,500	222,500
Total grants	2,052,500	222,500

¹ RD&E funding from Department of Agriculture and Water Resources.

The FRDC has a Research & Development Funding Head Agreement with the Department of Agriculture and Water Resources under which it manages a suite of research activities. The activities are listed at Note 3.4B, page 20.

Accounting policy

Australian Government grants income is revenue paid to FRDC for the purpose of funding specific research and development projects, and is recognised when:

- a) the FRDC obtains control of the grant or the right to receive the grant;
- b) it is probable that the economic benefits comprising the grant will flow to the FRDC; and
- c) the amount of the grant can be reliably measured.

	2018-19	2017-18
	\$	\$

Note 1.2: Own-source income continued

Note 1.2D: Contributions

Fisheries

Australian Prawn Farmers Association	68,516	104,999
Australian Fisheries Management Authority	15,000	24,000
Australian Capital Territory	-	-
New South Wales	-	232,000
Northern Territory	-	-
Queensland	539,000	600,000
South Australia	288,964	686,964
Tasmania	872,934	841,368
Victoria	-	30,000
Western Australia	1,336,666	638,797
Total contributions	3,121,080	3,158,128

Accounting policy

Contributions are recognised when:

- a) the FRDC obtains control of the contribution or the right to receive the contribution;
- b) it is probable that the economic benefits comprising the contribution will flow to the FRDC; and
- c) the amount of the contribution can be reliably measured.

Note 1.2E: Other revenue

Project funds received	1,800,000	1,003,945
Project refunds of prior years expenditure	45,147	258,157
Other ¹	-	8,877
Total other revenue	1,845,147	1,270,979

¹ On 1 June 2017 the Seafood CRC Board, as part of its wind up process, resolved, in accordance with its constitution, to transfer its remaining funds to the FRDC. Note 1.2E: Other, includes an amount of \$3,924 that was transferred by SCRC to FRDC on 4 July 2017.

Accounting policy

Project funds received are recognised when they are entitled to be received by the FRDC. Project refunds from research partners are brought to account when received.

Note 1.2F: Revenue from the Australian Government

Department of Agriculture and Water Resources		
Corporate Commonwealth entity payment item of 0.50% of AGVP ¹	13,626,504	13,053,236
Matching of industry contributions ²	2,858,168	2,846,913
Total revenue from the Australian Government	16,484,672	15,900,149

¹ AGVP is the average gross value of fisheries production for the current year and the two preceding financial years. The Australian Government's contribution of 0.50% of AGVP is made on the grounds that the FRDC exercises a stewardship role in relation to fisheries resources on behalf of the Australian community.

² Matching of industry contributions (up to 0.25% of AGVP) by the Australian Government.

Accounting policy

Revenue from the Australian Government

Funding received or receivable from non-corporate Commonwealth entities (appropriated to the non-corporate Commonwealth entity as a corporate Commonwealth entity payment item for payment to this entity paid by special appropriation) is recognised as revenue from the Australian Government by the corporate Commonwealth entity unless the funding is in the nature of an equity injection or a loan.

Financial Position

	2018-19	2017-18
Note 2.1: Financial assets	\$	\$
Note 2.1A: Cash and cash equivalents		
Cash on hand or at call	6,842,478	3,037,677
Cash on deposit:		
Fixed term deposit - original term 6 months	-	6,000,000
Fixed term deposit - original term 3 months	10,000,000	4,000,000

No property, plant and equipment is expected to be sold or disposed of within the next 12 months.

Accounting policy

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferor's accounts immediately prior to the restructuring.

Asset recognition threshold

Purchases of property, plant and equipment are recognised initially at cost in the Statement of Financial Position, except for purchases costing less than \$5,000 that are expensed in the year of acquisition (other than where they form part of a group of similar items where the value is greater than \$5,000).

Revaluations

Following initial recognition at cost, property, plant and equipment are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depend on the volatility of movements in market values for the relevant assets.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reverses a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the surplus/deficit except to the extent that they reversed a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset, and the asset restated to the revalued amount.

Depreciation

Depreciable property, plant and equipment assets are written off to their estimated residual values over their estimated useful lives to the FRDC using, in all cases, the straight-line method of depreciation.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2018-19	2017-18
Property, plant and equipment	up to 5 years	up to 5 years
Leasehold improvements	Lease term	Lease term

Impairment

All assets were assessed for impairment at 28 February 2019. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs of disposal and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the entity were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

Derecognition

An item of property, plant and equipment is derecognised upon disposal, or when no further future economic benefits are expected from its use or disposal.

Intangibles

The FRDC's intangibles comprise internally developed software and purchased software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the FRDC's software is 10 years (2017-18: 10 years).

All software assets were assessed for indications of impairment as at 28 February 2019.

More than 12 months	60,133	32,685
Total employee provisions	906,841	1,009,277

Accounting policy

Liabilities for short-term employee benefits and termination benefits expected within 12 months of the end of reporting period are measured at their nominal amounts. Other long-term employee benefits are measured as net total of the present value of the defined benefit obligation at the end of the reporting period minus the fair value at the end of the reporting period of plan assets (if any) out of which the obligations are to be settled directly.

Leave

The liability for employee benefits includes provision for annual leave and long service leave. The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will be applied at the time the leave is taken, including the entity's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

Superannuation

The FRDC's staff are members of the Public Sector Superannuation Scheme (PSS), or the PSS accumulation plan (PSSap), or other superannuation funds held outside the Australian Government.

The PSS is a defined benefit scheme for the Australian Government. The PSSap and any other superannuation funds are defined contribution schemes.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the Department of Finance's administered schedules and notes.

The FRDC makes employer contributions to the employee's defined benefit superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Australian Government. The entity accounts for the contributions as if they were contributions to defined contribution plans.

Note 3.2: Key management personnel remuneration

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the FRDC, directly or indirectly, including any director of the board (whether executive or otherwise) of the FRDC. The FRDC has determined the key management personnel to be the non-executive directors, the Managing Director and three senior general managers. Key management personnel remuneration is reported in the table below:

	2018-19	2017-18
	\$	\$
Short-term employee benefits (salary)	777,574	754,941
Post-employment benefits (superannuation)	144,606	155,279
Other long-term employee benefits (annual leave and long service leave)	80,681	78,932
Total key management personnel remuneration expenses	1,002,861	989,152

The total number of key management personnel that are included in the above table is 16 (2017-18: 11). They are made up of:

- seven non-executive directors
- one non-executive director (Chair)
- one Managing Director
- three senior general managers
- four non-executive directors (retired 31 August 2018)

Note 3.3: Annual total remuneration ranges (including superannuation) paid to key management personnel and the independent Finance, Audit and Risk Management Committee member¹

Note 3.4: Related party disclosures

Related party relationships

The FRDC is an Australian Government controlled entity. Related parties to this entity are non-executive directors, the Managing Director, and three senior general managers and other Australian Government entities.

The non-executive directors and the Managing Director of the FRDC during the year were:

The Hon. Ronald Boswell	Chair (Appointed 1 September 2016) (Member People and Culture Committee)
Dr Kathryn Brooks	Director (Appointed 10 October 2018) (Member Investment Mechanisms Working Group)
Professor Colin D. Buxton	Director (Deputy Chair) (Re-appointed 10 October 2018) (Member Investment Mechanisms Working Group)
Mrs Saranne Cooke	Director (Appointed 10 October 2018) (Member Finance, Audit and Risk Management Committee)
Ms Katina Hodson-Thomas	Director (Appointed 10 October 2018) (Member People and Culture Committee)
Dr Patrick Hone	Managing Director (Member Investment Mechanisms Working Group) (Member People and Culture Committee)
Mr Mark King	Director (Appointed 10 October 2018) (Chair People and Culture Committee)
Mr John Lloyd	Director (Appointed 10 October 2018) (Chair Investment Mechanisms Working Group) (Member Finance, Audit and Risk Management Committee)
Dr Lesley MacLeod	Director (Re-appointed 10 October 2018) (Chair Finance, Audit and Risk Management Committee)
Ms Renata Brooks	Director (Retired 31 August 2018)
Mr John Harrison	Director (Retired 31 August 2018)
Associate Professor Daryl McPhee	Director (Retired 31 August 2018)
Mr John Susman	Director (Retired 31 August 2018)
Ms Christine Feldmanis ¹	Independent Member Finance, Audit and Risk Management Committee (Retired 21 November 2018)

¹ Independent Member Finance, Audit and Risk Management Committee

Ms Feldmanis was paid under a consultancy agreement from 1 July 2018 to 20 November 2018; and is included in Note 3.3 Annual remuneration ranges, but is not included in Note 3.2 Key management personnel remuneration.

Note 3.4A: Transactions with director-related entities

The FRDC's practice is to disclose all transactions with an entity with whom a director has an association. This means that directors who have disclosed a material personal interest have attributed to them all the transactions of that entity with the FRDC. Typically, the FRDC will not transact with all the entities for which a director has made such a declaration. The transactions that are not with related parties as defined by AASB124 Related Party Disclosures, are identified below with an asterisk (*)

The FRDC's 'Board governance policy' provides guidance to directors on how the FRDC deals with material personal interests. Where a director has an association with an entity where a conflict has the potential to arise, in addition to the duty to disclose that association, the director absents him/herself from both the discussion and the decision-making process.

Given the breadth of Australian Government activities, related parties may transact with the government sector in the same capacity as ordinary citizens. Such transactions include the payment or refund of taxes, receipt of a Medicare rebate or higher education loans. These transactions have not been separately disclosed in this note.

The following transactions occurred during the directors' related period.

Director	Organisation and position held	Nature of interest	2018-19		2017-18

All transactions were conducted under normal terms and conditions and include GST.

¹ n/a - The director had not engaged in research projects or other work with the director-related entity in the reporting period.

Note 3.4B: Other related party disclosures**Department of Agriculture and Water Resources**

The FRDC has a Research & Development Funding Head Agreement with the Department of Agriculture and Water Resources under which it manages the suite of activities detailed below:

2015-16

- National Carp Control Plan
- The role of the recreational fisher in the stewardship of the Southern Bluefin Tuna fishery

The FRDC provided grants in 2018-19 totalling: \$2,052,500 (2017-18: \$222,500) (refer Note 1.2C: Grants).

Accounting policyFinancial assets

The FRDC classifies its financial assets in the following category:

- a) loans and receivables.

Loans and receivables

Trade receivables, loans and other receivables are classified as 'loans and receivables' and recorded at face value less any impairment. Trade and other receivables are recognised where the FRDC becomes party to a contract and has a legal right to receive cash. Loans and receivables are assessed for impairment at the end of each reporting period. Allowances are made when collectability of the debt is no longer probable. Trade receivables are derecognised on payment.

Financial liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities. Financial liabilities are recognised and derecognised upon 'trade date'.

Note 4.1B: Net gain or loss from financial assets**Loans and receivables**

Interest revenue (Note 1.2B)	397,407	274,173
Net gain from loans and receivables	397,407	274,173

Note 4.2: Fair value measurement

Accounting policy

FRDC engaged Jones Lang LaSalle Public Sector Valuations (JLL) to conduct an asset revaluation of all non-financial assets as at 30 June 2018. An annual assessment is undertaken to determine whether the carrying amount of the assets is materially different from the fair value. Comprehensive valuations are carried out at least once every three years. JLL has provided written assurance to the FRDC that the models developed are in compliance with AASB 13.

The methods utilised to determine and substantiate the unobservable inputs are derived and evaluated as follows.

Physical depreciation and obsolescence - assets that do not transact with enough frequency or transparency to develop objective opinions of value from observable market evidence that have been measured using the depreciated replacement cost approach. Under the depreciated replacement cost approach, the estimated cost to replace the asset is calculated and then adjusted to take into account physical depreciation and obsolescence. Physical depreciation and obsolescence has been determined based on professional judgement regarding physical, economic and external obsolescence factors relevant to the asset under consideration. For all leasehold improvement assets, the consumed economic benefit / asset obsolescence deduction is determined based on the term of the associated lease.

FRDC's policy is to recognise transfers into, and transfers out of, fair value hierarchy levels as at the end of the reporting period.

Note 4.2A: Fair value measurement

	Fair value measurements at the end of the reporting period	
	2018-19 \$	2017-18 \$
Non-financial assets		
Leasehold improvements	62,532	107,341
Plant and equipment	24,869	25,133
Total non-financial assets	87,401	132,474

The FRDC did not measure any non-financial assets at fair value on a non-recurring basis as at 28 February 2019.
